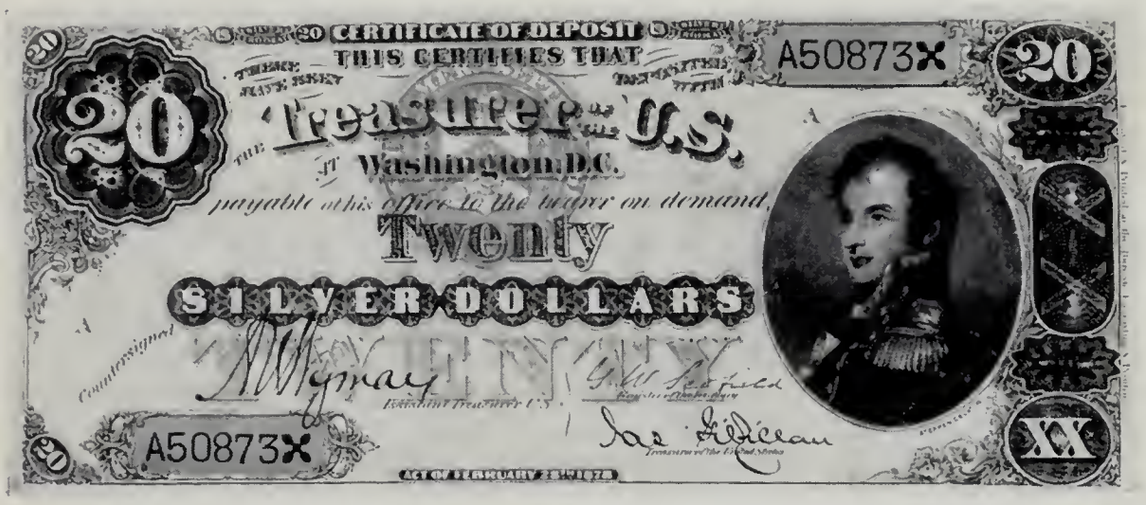
EXTREMELY RARE — POSSIBLY UNIQUE

NEW UNLISTED VARIETY



1878 Countersigned Silver Certificate

Occasionally, if ever in a lifetime, does one find a completely new variety of a coin or note of such importance than it warrants the attention of the entire numismatic fraternity. It is now our pleasure to offer at Public Auction to the highest bidder the following lot:

1100

593 Silver Certificate: Series of 1878 $20.00 denomination. Signed by Scofield and Gilfillan. Countersigned by A. U. Wyman; payable at Washington, D. C. Obverse: Bust of Stephen Decatur, right. Usual engraving on obverse as type. Large Red seal at top center. However, in place of the usual large red XX as on the few known specimens, this note has the word TWENTY in large letters spelled out in Red below seal. Reverse: Printed in brownish black ink on white paper as all are, however, this new type has blue fibre paper on lower half. A completely new variety, both obverse and reverse! Unlisted in Friedberg. However, to record and locate note, we assigned numbers as follows: Design number 76 Aa, Note number 307A. This note is in a choice EXTREMELY FINE condition and therefore leaves no room to question its authenticity. We have checked the records of the Grinnell, Wade, Pirtle, Hutchinson and other collections. We have examined the few notes in existance that are privately owned, and all are of the listed variety. No others are known of the note offered here. This is the only specimen ever offered for sale at auction during the entire period of nearly a century of American Numismatic History. The pride of its possession and ownership cannot be over-estimated. The great enhancement in value which this rarity will influence over the other notes in a collection is untold and inestimable. In our opinion, with the demand today for great rarities in both Paper Money and Coins, this item should realize several thousand dollars. **PLATE**

COMPLETE SET OF PANAMA-PACIFIC COINS IN ORIGINAL CASE

1321 **1915 Complete Panama Pacific set,** consisting of two Fifty Dollar Gold pieces, round and octagonal; $2.50 and $1.00 in gold, and the Half Dollar in silver. In original plush velvet and leather case as it came from the Exposition.

The Panama Pacific Exposition was held in San Francisco, in celebration of the construction and opening of the Panama Canal from February 20th to December 4th, 1915. It was one of the largest expositions ever held in the United States and attracted world wide attention. Forty-four States, United States Territories, and thirty six foreign nations were represented. The coins struck in connection with the exposition are among the most interesting of the United States commemorative issues.

These were the first Fifty Dollar gold coins to be issued under the authority of the United States government. Approximately 1500 sets were struck, although only 483 sets were sold at the Exposition. The balance of the issue was remelted. We doubt if more than half of the issue sold still exist, making it quite rare. This is probably the most popular and sought after set of coins in the market today. These sets were originally sold for $200.00 back in 1915. They have steadily increased in value, to a point today, where they are quoted at $4,500.00. In fact, we recently advertised a set in a plastic holder at $4,250.00 and were overwhelmed by the response. It would not surprise us to see this choice uncirculated set in original case of issue realize close to $4,500.00. It is an excellent investment that certainly never loses it's value. Past history has proven this fact.
